

Bareback Riding Safety Check List

- ✓ If a helmet is worn, please be sure it is in good condition and it fits
- ✓ Mouth piece should be formed to teeth, not new out of the package
 - Reference page 81, rule #14 under equipment
- ✓ Make sure the contestants vest follows the NHSRA Rulebook
 - Reference page 81, rule #15 under equipment – there are some vests with padding on the back only; this is not allowed
- ✓ The bareback rigging must conform to the NHSRA Rulebook
 - Reference page 78, rules #2 - #8
 - The Wildman rigging will be allowed. There are some differences because it has no bars. Please make sure latigos and cinches are in good condition.
- ✓ The bareback glove must conform to the NHSRA Rulebook
 - Reference page 80-81, rules #10 - #12 under equipment. This also should be in good condition.
- ✓ Chaps and boots should also be in good condition; do not want soles falling off and boots worn through
- ✓ Spurs must follow the NHSRA Rulebook
 - Reference page 81, rule #16 under equipment. No locked rowels or rowels that will lock on spurs or sharpened spurs. Spur rowels must have five points or more.

Junior High Bareback Riding

- ✓ All contestants must wear helmets approved for rodeo events. Please check helmets for damage and make sure they fit.
- ✓ There will be no adhesive material other than dry resin used on rigging or on riders glove. Benzion may be used.
 - Reference page 85, rule #12 under equipment
- ✓ Cinch requirements must follow the NHSRA Rulebook
 - Reference page 84, rule #6 under equipment
